EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Kirsten Grüneberg on 24 May 2005.

The application has been amended as follows: In the claims, in claim 5 lines 8-9, the brackets have been removed and following the phrase, "a polymerizable unsaturated group", a comma "," has been added.

REASONS FOR ALLOWANCE

In view of the telephonic interview of 24 May 2005 with Applicants' representative, the following is an examiner's statement of reasons for allowance: Applicants claim an optical recording material comprising a side-chain polymer liquid crystal containing, among other details, a compound according to formula 1 wherein the L group is either alicyclic or heterocyclic. It would not be obvious for one to alter the previously recited references to contemplate these compounds as each of the cited inventors teaches specific substituents to be necessary elements which differ from the cited teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
